 Lunaphore Technologies SA

 Tolochenaz (Vaud), Switzerland

**Job title:** Manufacturing Manager

**Reports to the:** VP Operations

**Activity rate:** 100%

**Type of contract:** Permanent

**Start date:** Asap

**Duration:** Indeterminate

### About our company

Lunaphore Technologies is a company born with the vision of accelerating cancer research, by making spatial biology mainstream in every research laboratory. We build solutions that simplify technology adoption for discovery and translational research laboratories and empower researchers to develop better targeted treatments for cancer and other diseases. Lunaphore is seeking a highly motivated candidate to join our team and contribute directly to the development and growth of the company.

### Job overview

We are looking for a Manufacturing Manager to lead the manufacturing activities of Lunaphore. The manufacturing manager will ensure that manufacturing processes run reliably and efficiently. The manufacturing manager will coordinate the manufacturing team, working in closed collaboration with the Supply Chain department, the Quality department, and the R&D department. The candidate has experience of mechanical/electronic devices.

### Responsibilities and duties

- Leads manufacturing team and influences multiple cross-functional teams.
- Ensure the recruitment, training, evaluations and professional development of the team members.
- Update and maintain the production plans for Lunaphore's products.
- Control production costs and guide the implementation of improvements.
- Establish roadmaps for new products industrialization and continuous improvement projects.
- Responsible for Manufacturing KPIs.
- Report to VP Operations the progress of the team's work.
- Support the VP Operations to plan, administrate and monitor the manufacturing department annual budget.
- Ensures compliance to quality and regulatory requirements.
- Represent the manufacturing department in quality reviews and compliance audit.

### Required qualifications

- Master degree (Mechanical Engineering, Biomedical Engineering or equivalent).
- 5+ years of experience in manufacturing department / production activities.
- Experience in ISO 9001.
- Experience in people management.
- Experience in project management.
- Experience in financial aspects of production.
- Fluency in English (at least C1), French / German / Italian is a plus.

### Required soft skills

- Demonstrated ability to run a high-quality manufacturing organization, strong organizational skills and experience in root cause analysis.
- Strong knowledge of Manufacturing Processes.
- You like interacting with people, bring advice and solutions to them, and demonstrate excellent internal communication skills.
- You have excellent leadership and interpersonal skills to lead a team.
- You have excellent project management skills.
- You are able to manage multiple tasks in an autonomous and efficient way.
- You have the ability to collaborate with others by working in a team, share information with peers and superiors.
- You demonstrate excellent organizational skills and attention to details.

### We offer

- A young and strong-growing high-tech company.
- A diverse and international working environment with a strong network.
- A highly interactive team with strong personal and technical qualities.
