 Lunaphore Technologies SA

 Tolochenaz (Vaud), Switzerland

**Job title:** Project Manager

**Reports to the:** Head of Project Management

**Activity rate:** 80-100%

**Type of contract:** Permanent

**Start date:** 01.01.2022

**Duration:** N/A

### About our company

Lunaphore Technologies is a company born with the vision of accelerating cancer research, by making spatial biology mainstream in every research laboratory. We build solutions that simplify technology adoption for discovery and translational research laboratories and empower researchers to develop better targeted treatments for cancer and other diseases. Lunaphore is seeking a highly motivated candidate to join our team and contribute directly to the development and growth of the company.

### Job overview

We are looking for an experienced Project Manager to strengthen our Project Management team. This role is cross-functional at the interface of the R&D, Marketing, Product Management as well as Scientific Affairs departments. Your mission will be to manage and coordinate activities of multidisciplinary Product Development projects to achieve project goals on time and within pre-defined scope.

### Responsibilities and duties

The Project Manager will be responsible for the following:

- Plan, monitor and manage cross-departmental projects.
- Plan, monitor and manage projects for V&V of Lunaphore's products.
- Coordinate the projects among the different stakeholders and ensure smooth communication.
- Collaborate effectively with the R&D, Product Management, Marketing, Customer support, Manufacturing, QA/RA and Scientific Affairs teams in order to achieve the goals of the projects.
- Maintain the team awareness of potential interdependencies with other projects and their impact.
- Manage project risks.
- Monitor overall progress and use of resources.

- Apply appropriate technical and quality strategies.
- Report project progresses in clear and detailed manner.

### Required qualifications

- A validated experience of at least 2 years in a similar position, PMP certification or similar is a plus.
- MSc. in biomedical engineering, life science or similar field.
- Working knowledge of project management tools.
- Experience in V&V activities is a plus.
- Proficiency in English (at least C1), French is a plus

### Required soft skills

- Organizational skills and attention to detail.
- Ability to interact with multidisciplinary teams and to work in a team.
- Capacity to adapt in a constantly changing environment.
- Strong communication and negotiation skills.

### We offer

- An ambitious project within a young and strongly growing high-tech scale-up
- A diverse and international working environment with a strong network.
- A highly interactive team with strong personal and technical qualities.
- An environment where you can have a real impact
- An environment where you will have the place to grow professionally and personally
