 Lunaphore Technologies SA

 Tolochenaz (Vaud), Switzerland

**Job title:** Junior Quality Control Engineer **Reports to the:** Junior QARA Engineer

**Activity rate:** Full-time

**Type of contract:** Permanent contract

**Start date:** 01.01.2022

**Duration:** Indeterminate

## About our company

Lunaphore Technologies is a company born with the vision of accelerating cancer research, by making spatial biology mainstream in every research laboratory. We build solutions that simplify technology adoption for discovery and translational research laboratories and empower researchers to develop better targeted treatments for cancer and other diseases. Lunaphore is seeking a highly motivated candidate to join our team and contribute directly to the development and growth of the company.

## Job overview

We are looking for a Junior QC Engineer to strengthen our Quality Assurance team. The key mission is to perform quality checks on incoming/outgoing product and prototypes.

## Responsibilities and duties

- Perform incoming / final quality check on Lunaphore's instruments and accessory products, including visual, mechanical, and documentary controls.
- Perform tissue samples staining on Lunaphore's instruments and score the staining quality.
- Follow the internal processes for the handling of conform and non-conform parts.
- Participate in the root cause investigation of non-conformities, along with Lunaphore's other departments. This may include the performing of additional functional, visual and/or dimensional checks.
- Responsible for the interactions with some Lunaphore's critical suppliers regarding Quality issues.
- Participate in critical supplier's audit.
- Report to the Junior QA/RA Engineer on a regular basis.

### Required qualifications

- You have a BSc or MSc in Biomedical Engineering, Mechanical Engineering, or a related field.
- You are a hands-on person, at ease with manual work.
- Experience in quality control is a strong plus.
- Knowledge of good laboratory practices, pipetting and preparation of reagents is a strong plus.
- Good knowledge of Excel and Word programs.
- A good command and understanding of written English, French is a plus.

### Required soft skills

- A very strong attention to detail.
- Capacity to adapt in a constantly changing environment.
- Good organizational skills and autonomous personality.
- Ability to manage deadlines and multiple priorities.
- Ability to interact and work in a multi-disciplinary team.

### We offer

- A young and strong-growing high-tech company.
- A diverse and international working environment with a strong network.
- A highly interactive team with strong personal and technical qualities.
