### About our company

Lunaphore Technologies is a young scale-up active in the Life Sciences field developing products based on a microfluidic technology to analyze tissue samples in immuno-oncology research. Lunaphore is seeking a highly motivated candidate to join our team and contribute directly to the development and growth of the company.

### Job overview

We are looking for a Quality Control Technician to strengthen our Quality Assurance team. The key mission is to perform quality checks on incoming/outgoing product and prototypes.

### Responsibilities and duties

- Perform visual quality inspections on Lunaphore's instruments and accessory products including microfluidic chips, chemical reagents, spare parts,...).
- Perform mechanical functional tests on Lunaphore's instruments.
- Perform mechanical functional tests on Lunaphore's accessory products and spare parts using Lunaphore's instruments and/or other instruments.
- Perform tissue samples staining on Lunaphore's instruments and score the staining quality.
- Perform dimensional controls on spare parts.
- Perform documentary controls on Lunaphore's instruments, accessory products and spare parts.
- Follow the internal processes for the handling of conform and non-conform parts.
- Report the results of the quality inspection to the Junior QA/RA Engineer.
- Support the Junior QA/RA Engineer in the root cause investigation of non-conformities. This may include the performing of additional functional, visual and/or dimensional checks.

## Required qualifications

- You are a hands-on person, at ease with manual work and the operating of complex semi-automatic instruments
- Experience in quality control in mechanical field / laboratory field / medical device field is a strong plus
- Knowledge of good laboratory practices, pipetting and preparation of reagents is a strong plus
- Good knowledge of Excel and Word programs
- A good command and understanding of written English, French is a plus.

## Required soft skills

- A very strong attention to detail
- Capacity to adapt in a constantly changing environment
- Good organizational skills and autonomous personality
- Ability to manage deadlines and multiple priorities
- Ability to interact and work in a multi-disciplinary team

## We offer

- A young and strong-growing high-tech company.
- A diverse and international working environment with a strong network.
- A highly interactive team with strong personal and technical qualities.
