

Supply Chain Intern

Reports to: Supply Chain Manager

Type of contract: Internship (6 months)

Start date: 1st May 2022

Activity Rate: Full Time

Are you a student or nearly graduated looking for an exciting challenge where you can have an impact on the future growth of your company?

About us

Lunaphore Technologies is a company born with the vision of accelerating cancer research, by making spatial biology mainstream in every research laboratory. We build solutions that simplify technology adoption for discovery and translational research laboratories and empower researchers to develop better targeted treatments for cancer and other diseases.

Your Missions

As Supply Chain Intern you will be part of the Supply Chain team, contributing to customer satisfaction by organizing shipments, purchasing components, and managing stocks. You will provide on-field support and join a hard-working team, passionate about taking Lunaphore to the next-level.

- Support the team with shipments preparation
- Support the team with stock management
- Manage the stock for a range of products
- Purchase logistics materials
- Follow-up supplier orders
- Do physical inventory counts
- Learn supply chain processes in Lunaphore and update our work instructions and procedures
- Participate in the improvement and optimization of supply chain processes

Your ideal profile

- Student or recently graduated CFC, Bachelor or Master's in Business Administration, Supply Chain, Engineering, Logistics or Commercial.
- Good understanding of supply chain processes.
- Good knowledge of Microsoft Office tools (Excel, Word, PowerPoint).
- Fluency in oral and written English is a must.
- You have the ability to collaborate with others by working in a team and build relationships, within the company as well as with external suppliers or customers.
- You demonstrate excellent organizational skills and attention to detail.
- You demonstrate critical thinking and analytical skills.
- You manage time and priorities very well and have a good sense of responsibility.
- You have the ability to adapt in a constantly changing environment.

What we offer

- A dynamic company where you can have a real impact
- An environment where you will be able to grow both professionally and personally
- Collaborate every day with a young, interactive, and motivated team

Only CH/EU/EFTA candidates will be considered

Are you passionate about making spatial biology mainstream and empowering researchers? Us too!
