

# Logistics Operator

**Reports to: Supply Chain Manager**    **Type of contract: Permanent**    **Start date: ASAP**

Are you a logistics professional, looking for an exciting challenge where you can have an impact on the future growth of your company?

## About us

Lunaphore Technologies is a company born with the vision of accelerating cancer research, by making spatial biology mainstream in every research laboratory. We build solutions that simplify technology adoption for discovery and translational research laboratories and empower researchers to develop better targeted treatments for cancer and other diseases.

To support our future growth, we are looking for a highly motivated and dynamic individual to join our team!

## Your Missions

Reporting to the Supply Chain Manager, you will perform logistics related activities.

- Do the physical preparation of shipments to customers including small packages and pallets
- Manage the transfers between internal warehouse and external warehouse
- Coordinate with the reception the shipments and deliveries
- Communicate with transporters for the logistics operations
- Receive and store products in the warehouse, monitor stocks and ensure proper storage of products
- Do physical inventory counts
- Input stock information in the ERP system
- Prepare dangerous goods shipments
- Participate in the improvement and optimization of supply chain processes

## Your ideal profile

- CFC or experience in logistics or equivalent position
- Good understanding of supply chain processes
- Knowledge of Microsoft office tools (Excel, Word, PowerPoint)
- Fluency in French or English
- Knowledge of dangerous goods transportation rules is highly desired
- Ability to collaborate with others by working in a team and build relationships
- Excellent organizational skills and attention to detail
- Keen on implementing and optimizing processes
- Ability to adapt in a constantly changing environment

## What we offer

- A dynamic company where you can have a real impact
- An environment where you will be able to grow both professionally and personally
- Collaborate every day with a young, interactive, and motivated team

Are you passionate about making spatial biology mainstream and empowering researchers? Us too!
