

VP of Operations

Reports to: CEO

Type of contract: Permanent

Start date: Asap

About us

Lunaphore Technologies is a company born with the vision of accelerating cancer research by making spatial biology mainstream in every research laboratory. We build solutions that simplify technology adoption for discovery and translational research laboratories and empower researchers to develop better-targeted treatments for cancer and other diseases.

Your Missions

Reporting directly to the CEO, The Vice President of Operations will plan, direct, coordinate, and oversee the operations team (composed of the Quality and Regulatory Affairs team, Supply Chain team and Manufacturing team). You will collaborate with Lunaphore executive leadership to develop and meet company goals while supplying expertise and guidance on operations projects.

- Establish and implement strategies and goals for the operations team (QARA department, Supply chain department and Manufacturing department) in line with company strategy and goals
- Lead and coordinate managers of each department of operations
- Establish and manage operations budget
- Be responsible for keeping quality, regulatory and manufacturing-related deadlines for the company
- Lead Insourcing / Outsourcing strategy
- Lead and manage contacts with external parties such as notified bodies, competent authorities, suppliers, and distributors consultants, as well as build the necessary network in the field
- Ensure alignment with other departments' strategies and timelines
- Prepare reports to be presented to or used by the management team
- Represent operations team during management meetings and strategic company meetings

Your ideal profile

- M.Sc in life science/engineering or similar domain
- At least 7 years of experience in manufacturing and supply chain activities
- Proven strategic planning experience
- Demonstrated experience setting, monitoring and meeting quarterly and annual goals
- Experience building and scaling teams and systems
- Ideally, experience in working within life science ISO 9001 certified companies
- Excellent ability to motivate and direct people
- Fluent in English

What we offer

- A dynamic company where you can have a real impact
- An environment where you will be able to grow both professionally and personally
- Collaborate every day with a young, interactive, and motivated team
- A diverse and international working environment

Are you passionate about making spatial biology mainstream and empowering researchers? Us too!
