# SAFETY DATA SHEET

Blocking Buffer Kit, Solution 2

# 1. Product and company identification

: Blocking Buffer Kit, Solution 2 **Product name** 

**Product code** : BU10

Supplier's details : Lunaphore Technologies SA

> Route de Lully 5C, CH-1131 Tolochenaz, Switzerland +41 800 84 86 89

**Distributor: PHC Corporation** 2-38-5 Nishi-Shimbashi

Minato-ku, Tokyo 105-8433 Japan

Tel: +81-120-878-279

Mail: wg-inq\_epredia@ml.phchd.com

e-mail address of person responsible for this SDS

: support-tech@lunaphore.com

**Emergency telephone** number (with hours of

operation)

: CHEMTREC:

+81 3-4520-9637 (Local)

**Product use** : Professional use. Use in laboratories: Research.

## 2. Hazards identification

**GHS Classification** : Not classified.

Percentage of the mixture consisting of ingredient(s) of unknown acute toxicity:

100%

Percentage of the mixture consisting of ingredient(s) of unknown hazards to the

aquatic environment: 100%

**GHS label elements** 

Signal word : No signal word.

**Hazard statements** : No known significant effects or critical hazards.

**Precautionary statements** 

**Prevention** : Not applicable. Response : Not applicable. Storage : Not applicable. : Not applicable. **Disposal** 

Other hazards which do not : None known.

result in classification

# 3. Composition/information on ingredients

Substance/mixture : Mixture Bocking Buffer Kit, Solution 2

Date of issue/Date of revision : 01/11/2022 Date of previous issue : 24/11/2021 Version : 2

## 4. First aid measures

Inhalation

: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.

Skin contact

: Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.

Eye contact

: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.

Ingestion

: Wash out mouth with water. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

Protection of first-aiders

: No action shall be taken involving any personal risk or without suitable training.

Notes to physician

Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.

## 5. Fire-fighting measures

Suitable extinguishing media

: Use dry chemical, CO2, water spray (fog) or foam. Use an extinguishing agent suitable for the surrounding fire.

Unsuitable extinguishing media

: Do not use water jet.

Specific hazards arising from the chemical

: In a fire or if heated, a pressure increase will occur and the container may burst.

Special protective actions for fire-fighters

: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

Special protective equipment for fire-fighters Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

# 6. Accidental release measures

### Personal precautions, protective equipment and emergency procedures

For non-emergency personnel

: No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment.

For emergency responders: If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

**Environmental precautions** 

: Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

### Methods and materials for containment and cleaning up

Small spill

: Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

Date of issue/Date of revision : 01/11/2022 Date of previous issue : 24/11/2021 Version : 2

## 6. Accidental release measures

### Large spill

: Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

# 7. Handling and storage

#### Precautions for safe handling

**Protective measures** 

: Put on appropriate personal protective equipment (see Section 8).

Advice on general occupational hygiene

: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

#### **Storage**

Conditions for safe storage

: Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

# 8. Exposure controls/personal protection

Appropriate engineering controls

: Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

Occupational exposure limits

None.

### **Biological exposure indices**

None known.

### **Individual protection measures**

**Respiratory protection** 

: Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

**Hand protection** 

: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated.

Eye protection

: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.

Skin protection

: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. Blocking Buffer Kit, Solution 2

Date of issue/Date of revision : 01/11/2022 Date of previous issue : 24/11/2021 Version : 2

# 8. Exposure controls/personal protection

Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

# 9. Physical and chemical properties

The conditions of measurement of all properties are at standard temperature and pressure unless otherwise indicated.

**Appearance** 

Physical state : Liquid. Color : Colorless. : Not available. Odor Hq : Not available. : Not available. Melting point/freezing point Softening point : Not available. : Not available. Boiling point, initial boiling

point, and boiling range

: Not available. Flash point Lower and upper explosion

: Not available. limit/flammability limit

Vapor pressure : Not available. Relative vapor density : Not available. : Not available. Relative density Partition coefficient: n-: Not applicable.

octanol/water

**Auto-ignition temperature** : Not available. **Decomposition temperature** : Not available. **Viscosity** : Not available.

**Particle characteristics** 

Median particle size : Not applicable.

# 10. Stability and reactivity

Reactivity : No specific test data related to reactivity available for this product or its ingredients.

**Chemical stability** : The product is stable.

Possibility of hazardous reactions

: Under normal conditions of storage and use, hazardous reactions will not occur.

Conditions to avoid : Keep away from heat, sparks and flame.

Incompatible materials : Reactive or incompatible with the following materials:

Strong oxidizing materials, strong acids, strong alkalis

Hazardous decomposition

products

: Under normal conditions of storage and use, hazardous decomposition products

should not be produced.

Blocking Buffer Kit, Solution 2

Date of issue/Date of revision : 01/11/2022 Date of previous issue : 24/11/2021 Version : 2

# 11. Toxicological information

### **Acute toxicity**

### **Acute toxicity estimates**

Not available.

**Conclusion/Summary**: Not available.

Irritation/Corrosion
Conclusion/Summary

Skin : Not available.

Eyes : Not available.

Respiratory : Not available.

Respiratory sensitization/Skin sensitization

**Conclusion/Summary** 

Skin: Not available.Respiratory: Not available.

**Germ Cell Mutagenicity** 

**Conclusion/Summary**: Not available.

Carcinogenicity

**Conclusion/Summary**: Not available.

**Reproductive toxicity** 

Conclusion/Summary: Not available.

Specific target organ toxicity (single exposure)

Not available.

Specific target organ toxicity (repeated exposure)

Not available.

### **Aspiration hazard**

Not available.

# 12. Ecological information

#### **Ecotoxicity**

Conclusion/Summary : Not available.

Persistence/degradability

**Conclusion/Summary**: There are no data available on the mixture itself.

**Bioaccumulative potential** 

Not available.

**Mobility in soil** : Not available.

<u>Hazardous to the ozone</u>: Not applicable.

<u>layer</u>

Other adverse effects : No known significant effects or critical hazards.

Bocking Buffer Kit, Solution 2

Date of issue/Date of revision : 01/11/2022 Date of previous issue : 24/11/2021 Version : 2

# 13. Disposal considerations

### **Disposal methods**

: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

# 14. Transport information

	UN	IMDG	IATA
UN number	Not regulated.	Not regulated.	Not regulated.
UN proper shipping name	-	-	-
Transport hazard class(es)	-	-	-
Label			
Packing group	-	-	-
Environmental hazards	No.	Marine Pollutant: No	No.

Special precautions for user : Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according : Not applicable. to IMO instruments

# 15. Regulatory information

#### Fire Service Law

None of the components are listed.

### **Industrial Safety and Health Act**

#### Ordinance on the Prevention of the Hazard due to Specified Chemical Substances

None of the components are listed.

#### Substance(s) requiring labelling

None of the components are listed.

#### **Chemicals requiring notification**

None of the components are listed.

### **Guideline for Preventing Health Hazard by chemical substances (Carcinogenicity)**

None of the components are listed.

### <u>Mutagen</u>

None of the components are listed.

Blocking Buffer Kit, Solution 2

Date of issue/Date of revision : 01/11/2022 Date of previous issue : 24/11/2021 Version : 2

# 15. Regulatory information

#### **Chemical Substances Control Law (CSCL)**

None of the components are listed.

### Poisonous and Deleterious Substances

None of the components are listed.

#### Pollutant Release and Transfer Registers (PRTR) - Until March 2023

None of the components are listed.

### Pollutant Release and Transfer Registers (PRTR) - From April 2023

None of the components are listed.

**High Pressure Gas Control**: Not applicable.

Law

#### **International regulations**

#### Chemical Weapon Convention List Schedules I, II & III Chemicals

Not listed.

#### **Montreal Protocol**

Not listed.

#### Stockholm Convention on Persistent Organic Pollutants

Not listed.

#### Rotterdam Convention on Prior Informed Consent (PIC)

Not listed

### **UNECE Aarhus Protocol on POPs and Heavy Metals**

Not listed.

United States : Not determined.

## 16. Other information

**History** 

**Date of printing** : 02/11/2022 **Date of issue/Date of** : 01/11/2022

revision

Date of previous issue : 24/11/2021

Version : 2

**Key to abbreviations** : ATE = Acute Toxicity Estimate

BCF = Bioconcentration Factor

GHS = Globally Harmonized System of Classification and Labelling of Chemicals

IATA = International Air Transport Association

IBC = Intermediate Bulk Container

IMDG = International Maritime Dangerous Goods

LogPow = logarithm of the octanol/water partition coefficient

MARPOL = International Convention for the Prevention of Pollution From Ships,

1973 as modified by the Protocol of 1978. ("Marpol" = marine pollution)

N/A = Not available SGG = Segregation Group UN = United Nations

### Procedure used to derive the classification

Classification	Justification
Not classified.	

Bocking Buffer Kit, Solution 2

Date of issue/Date of revision : 01/11/2022 Date of previous issue : 24/11/2021 Version : 2
